A FEW OF OUR MAJOR CUSTOMERS!

- *Army & Air Force - Dept of Defense - large orgs.*
- *Lucent Technologies, Inc. – large business*
- *NRC-SCD. – Med-size business (>600 emps)*
- *BIPs Engineering Firm – Small business(~5 emps)*

These are just a few of our clients.

QUALIFIED BUSINESS/TECHNICAL STAFF

InTech realizes that majority technical employees have strictly technical experience. Many Business people have minimal (if any) technical experience at all. What business's need is to have access to employees that have BOTH the experience & knowledge for these two areas PLUS paper-less office experience. Having only ONE knowledgeable consultant will save you major time and dollars.

*InTech has employees that meet both these requirements for the company/org. We call these employees “**Technical Business Consultants**”. InTech uses these high power individuals to focus both your company/org resources and our internal resources to meet your goals. We use these high-dollar resources to guide our knowledgeable employees to provide EDM quickly, efficiently and cost-effectively to save you time and money.*

CORPORATE HISTORY

Intellectual Technologies, Inc.® (InTech) originated as a spin-off company of E-Squared Technologies back in 1989. InTech later incorporated and began mainly working on major government contracts in Electronics Engineering. In 1998, InTech modified its scope of services by providing reliable Electronic Document Management (EDM) systems to its clients. EDM (better known as Paperless Office Environments) is an exciting area that has been around since 1989. InTech has been applying EDM systems for both industry and government for > 6

years. Our company leader was involved in the first large EDM systems for the government in 1990 worth over \$1.5M. He has conveyed the psychological issues, design constraints and other unique areas only a person closely involved in EDM can know & convey. He also understands & knows how to control the paradigm-shift employees will go through using EDM.

InTech has and will continue to be available as a consultant, tech support, assistance and trainer for your org, office and/or company before, during and after your EDM implementation.

EXCITING TIMES!

Due to these difficult times (i.e. closings, restructurings and employee lay-offs); employees know that they must be willing to learn new areas & products in order to stay as an asset for the office, company and/or org.

Now is the time to enforce a new and exciting shift in the way they (the employees) do business (paradigm-shift)! The application of EDM (visible change) enforces and shows longevity in the company/org for the employees. Basically, it shows the company/org is financially stable enough to handle such changes. This is strongly stated without using any words! Make the change today!

Show the employees a sign that the company/org will withstand these difficult times. Applying this technology will convey this where just stating this is not strong enough.....

(Results/actions speak louder than words!)

Be ANYWHERE in the world and approve your docs/forms in minutes, not days/weeks!

Break the Physical Barriers of approving your documentation & forms TODAY!

(with 100% security and legal authenticity!)

Mission Statement:

Assist business (government & industry) in performing E-business with 100% security of their signatures, data, docs and forms from both internal (i.e. unauthorized employees) and external sources (i.e. hackers).

InTech Goals:

Provide businesses/organizations with:

- *EDM Training (intro, classroom, user & retention training)*
- *EDM Consulting (Strategic, Org, resources and Technical Business Consulting)*
- *Business Reorganization with new EDM hardware and software*
- *Business Acceptance of new modes of operation*
- *Database Design, Development, Execution and Training (User & Admin)*

What We Do!

*Intellectual Technologies, Inc®. (InTech) is a firm that provides E-Business Systems for all types of businesses today. We utilize the stable & reliable **LITE** Digital Signatures backbone/functions of Adobe Acrobat ®. Our additional software/plug-in provides you even more security for your data, signatures & protection. Our EDM expertise and knowledge eases your learning-curve and use of EDM within your org/company or office. You will have online signing; secure documentation that contains an employee's online hand-written signature/s with 100% security and comparison capability of each doc/form (**Eform**). We work with you closely (via business technical consulting services) to focus you to get the best cost-savings/impacts in using your EDM. We provide secure Email communications, Electronics Document Management and complex Software Applications and Databases.*

We support in focusing both government and businesses (large and small) in applying Electronic Document Management/Paperless Office concepts and procedures in becoming more efficient and effective organization.

 - *and more.....*
- ***Technical Business Consulting, Studies, Evaluations & Analysis and Support***

What We Can Do For You!

InTech can provide all the tools (software, hardware & manuals) to go paperless. We also provide needed technical and business directions/advice/consulting to apply EDM. Whether you decide to take it slow or apply total EDM, we can help you to apply it profitable for your organization.

We also provide training, retention of this information, strategic and company/org implementation and other areas of EDM.

Let us start working with you to strategically apply EDM within your organization. We will patiently work with you and walk you through this complex area to ensure you and your organization is confident in EDM and how to use it.

Do not waste time & valuable dollars to begin applying this area.

Call InTech to get you started TODAY!
